Yes yes java... I've read the rules on your clans website, but thats why it's so confusing... I know the rules, and I make sure I don't break them, so I have no idea why I get banned. It's never a perma ban though. Usualy I get banned for a month or something like that. If I recall correctly, it states in your rules that sometimes people are evicted from a game to make room for FUD players, but I don't think that is why I get booted, because it happens to frequently.

Just pisses me off though, because I have no idea what I did wrong, and I really enjoy playing on the FUD servers...
