InfinintAcctully i myself am one of the one who will stay with ren till EA shuts down the servers, which is what in was talking about in my last post.

Yea ive played command and counqer since i was in like 4th grade that long time and i havnt left tiberian dawn, tiberian sun or any cnc game yet \*except generals somethn just dont click with me about it\* and i defenitly dont plan on leaving renegade till somoene shuts down servers or puts my ass one town over witht he amish
