Quote:Perhaps you should entertain the notion of suicide. It seems you are in a state of post-masturbatory lingual wanking, and since they don't HAVE help for that, I'm sure you can find a good bridge to jump off of.

Remember kids, when in doubt, SUICIDE IS THE ONLY OPTION.

Suicide generally runs as a genetic pattern. People who have a tendency to think about it, may also have a serious problem in as much as they would even entertain that or, as once again a and really seriously entertain, crisis intervention.
