Ohhhh you meant the video cards I picked out to buy ok I got ya now. Well, my dad said I should wait untill after christmas to buy a video card because the prices of things always go down after christmas, and also he said he'll give me \$26 to help buy my vid card with, so now my price is \$126 for a video card BTW my current video card is the worst one on <http://www.newegg.com> LOL! it's only \$26 I've had my current video card since, I dunno LOL!
