Aircraftkiller You guys are clueless.

maj.boredom Try to focus people. This is not about egos any more and this is not a contest either.

Really, you guys got way off topic, and most of your back and forth is trash talk.

I'd like to point out the smart-ass in this picture. I'd like to point out the efforts of others. and there will be yet someone else that disagrees or wants to flame me for my opinion. Which everyone is entitled to?

There is a lot of truth in this thread. Yes it is a mod, duh... But some cannot separate personal

I really wish some people would grow up. Is that a chip on your shoulder or just envy? Personal attacks have no relevance on the thread, they are flames, and carry no weight toward right or wrong, or the topic, both of you..

Ack, you did provoke this, and came across not confidant, but cocky as all hell. Take a stab at me; pick on someone your own size. I'd attempt to teach you something about manners or etiquette, even though we are all are children at heart. Many do respect you; can't you set a positive example? Instead of talking trash.

<http://www.planetcnc.com/features/articles/etiquette/>

Now I'm off topic.
