No, you hit the nail on the head warranto.

Don't say I didn't try to get NS IRC more organized Crimson, I told you to hold meeting, to create a list of rules for everyone to follow, to create a simple website for the network, but it never happened, I understand you are busy, but an IRC network is a like a country, if you don't hold it together by communication and laws, it falls apart. And don't say I didn't try to delink peacefully, because I did, but everyone kept on jabbering until the point where Blazer squitted, which pissed me off beyond belief
