warrantoMost "mature" people don't use such language for one. Nor do they make unreasonable inferences of others when they have no valid proof to back it up.

once you hit puberty, you'll realize that the way someone speaks has absolutely nothing to do with how mature they are. And what, pray tell, dont I have proof to back up? the fact that Crimsson and ACK are both self righteous asshats? I can give you several from this thread alone

---
