I never said I own the site, I said I own the address, which is not true, the address is owned by dot.tk

But I have control over it, I can make it go where ever I want... hmm, redirect to some porn site...  
:twisted:

Ha ha ha, can picture it now, he goes to show the work he has done to his mom,

Sight loads, "Naked Russian House Wives"

Ba ha ha ha... don't worry, I wouldn't do that to you
