I liked the first matrix movie way better than the second one. The second one was dumb nothing really happened. After the first movie came out everybody talked about how cool it was and everytime you see something abnormal while playing a game you think of the matrix and the reality defying stunts. Now that the second one has come and gone everybody is making fun of it, like in Scary Movie 3 and the MTV music awards (lmao)

Hopefully this upcoming movie won't so pointless.
