ohmybadThis: <http://www.accupc.com/itemDetail.jsp?pid=vav7100pro64>

Or this: <http://www.accupc.com/itemDetail.jsp?pid=VGVR7064T>

Both nice cheap vid cards.

If your loaded with cash.

I think I may upgrade to one of the cheap cards. The last card is worth more than the rest of my computer combined!!! But for \$38 to upgrade out of my VooDoo3 is most likely worth it.

But than again, my VooDoo3 and I have had some wonderfull games together.....
