I know it is possible to re-map keys via the input01.cfg file.

But what I don't know is the name of the "Ctrl" key, I wish to re-map coruch to "Ctrl" (Crouch\_Primary=) as it will then correspond to my other games.

This will mess up radio commands, but that bother me.. with that said though, is it possible to remap the keys for the radio commands?

Thanks in advance,

~Craig Jonothan Guest
