OrcaPilot26how many weapon models/modellers does RenAlert have? This is the 3rd AK-47 I've seen for the mod.

Renegade Alert currently has 1 weapon modeler... Now try and guess who he is.

Quote:Those are cool. You should try moddlen for CS you would be good.

Now why would I even consider CS? I'm already on a mod to the successor of the technology that CS uses (aka, Quake 3 Arena)... Modding for CS would be a LARGE step backwards, that's like sending a High School senior back to Kindergarten because he's so smart.

(I also find the concept of making a mod for a mod (Yes, Counter-Shit is a mod) for a 6-7 year old game ridiculous.)
