Over at TTLG, I spotted a hilarious thread.

It was about someone asking opinions of going "furry," trying out a sexual attraction to people dressed like furry cartoon animals.

Should I go furry?

I have done some investigation of the furry community and i wanted an opinion; whether or not to join. I would not go all to extreme ends.

Just to wear a tail.....

I have sat staring at a Post Reply screen for approximately five minutes now, fully intending to post a reply, but I have no idea what the words I want to say are.

Perhaps I would be better to express myself through the medium of song.
