i must say, when i read it, the whole think reminds me of what i tell noobs, i mean i play at net cafes vary often, hell i kinda forced the owner to buy the game 4 me .. lol, ne ways, my tutorials are vary similar, but i do live 1v1 or 2v2 demos of that, but i think aircraft was left off, and a few basic 'noob good' tactics should be mentioned, ie. mass infantry rushing formations, (but oh well), i also like to tell new players never to buy humv's and buggies, beucase i often notice they are useless in them, and bigger the tank, usaully the more affective, but i guess noob tactics are usless after a while so ya.
