well if u want to talk about vech tricks like this (and this one isn't event that good / true) i like these

mrls front foor of hand of nod, kills alot of ppl, and hurts the engineers OR lunch misiles from outside in threw the windows at the MCT!

light tanks vs refinery / guard tower, your can drive up to the door to make it open and shoot the MCT, drive back and forth to open n close

this is a personal fav of mine, stealth tanks infront of doors, jsut think, walk out, and splat, this could be considered spawn camping, but hey, its fun
