warrantorm5248you should probably make it so that it doesn't work on unladderd games. because most cheats, i belive, only work in unladderd games. that would be very stupid if you kicked somebody from an unladderd game if the cheat does not give them any help on ladder points. and wasnt the point of unladderd games to make it so that you can cheat? or just for practice?

:rolleyes: :rolleyes:

Quote:and will this just be for the servers that download renguard, or will it be for all servers wether they want it or not?

This has been answered already. Regardless, no it won't be manditory. However, if a server is running renguard you'll need it as well in order to play on it.

hmmm i was thinking about this...

Firsty , If u need renguard to play on the server, then that means u cant get in without it :

I assume u just cant join, i.e. join button doesnt come up ?

Or do u get kicked if u dont have it ?

Secondly, what kind of CHEATER wud get renguard and have cheats ON thats just F**cking stupid....

thanks..
