First of all, he's probably just some average schmoe who believes nothing of what he said, and just put it on the internet to ruffle some feathers. I say this because I find it extremely unlikely that anyone could support any or all of these views and actually think that he has a chance of implementing them.

^ I'd have to agree with that. I bet he's just trying to make us right-winging Christians look bad! Even though I'm more of a Libertarian, but don't get the wrong idea, the Libertarian party SUCKS (Go GOP!)

Anyway, lying or not, he's still making us look bad.

I would hesitate to say he's making us look bad. 99% of the USA (more even) would disagree with him. And seeing that he is just a fucktarded, high-school senior who made it to uglypeople.com, I CERTAINLY don't think I, or any of you, are going to look bad in someone's eyes because of that nonsensical garbage he spurts out his ass!

But it could be the case that he is simply trying to stir things up. In which case it just goes to show that he is a lazy fat ass who has NOTHING to do with years of his life than try to impose a fucked up social order while in high school.

Imao

Actually, the guy is like 23 years old now. When he first wrote that website that was back in 1999.
