CrimsonThanks to Cypher and Zerk of PlanetCNC (http://www.planetcnc.com), these files are also available on FilePlanet:

http://www.fileplanet.com/dl.aspx?/planetcnc/renegade/maps/fixed_westwood_maps.rar

Might be faster than downloading from me. :\

LOL   But, this is a really awesome file. I installed it, and I tried to load one map, but I saw no change. I tried a second time and a third and BANG! Instant change. Lol this is really great. Nice work guys and gal.
