wow WOL is full of n00bs! Amazing... I just install WOLspy on my Server, [UN] Default Maps. And today our load was much higher than usuall because players from both GSA and WOL could play on the same server. LOL man, like there are always 3x as many WOL players than GSA! Wow, so many n00bs, they don't dodge when the shoot, they try to bullrush into TANKS They chase people through tiberium fields! They challenge the agt to a sniper battle!

Wow, all I gotta say is that if you think GSA has n00bs, you have no idea, the average WOL is 10x as bad as a GSA n00b.
