That has nothing to do with it Dave. What he believes is his own decision. It doesn't matter if you want to assume for him, because he's got enough problems with you as is. Just back off for once in your life, seriously. I don't know if Aprime feels the same way, and I don't know what exactly happened, but right now I don't feel to good either. In my mind I used to be one of his left-hand mans with Madtone. While that isn't true anymore, I still should've been there. Personally I'd enjoy figuring out what the hell happened here. But the ignorant statement there was not neccessary, and I don't think we need ot start a religion discussion just because you felt that you needed to make some people fight because of you being a little punk.
