spreegemSir PhoenixxUmbral\_DelaFlareDude, if you do get that car, I am SO going up to Central Florida to steal it from you.

Lol... It's not an "if", it's a "when"...

And you wouldn't be able to steal it from me. I have the ultimate security system planned out. I'd gladly spend the money to have the best security devices installed...

I'm sure given enough time people will find a way around your security no matter how good it is. . . even if it takes them years people will find a problem with it eventually.

They'd have to be allowed to get into/under the hood/trunk/etc. and mess around with the electronics... Do you think I'd actually let people do that to see if they can get pass the security devices?
