For the servers not running RenGuard it will help them and they still have a disadvantage wither way. Also it is mean to do to the n00bs. Besides it will decrease the likeliness that the real cheats will be found. The n00bs will probably give up after downloading cheats several times from several websites that all give you a disadvantage anyways. Yes I did get this idea from my other thread, but since not every one visits the mod forums I felt it was appropriat to post in general discussion and the RenGuard forum as well, if the mods feel as if I am spamming, I am sorry.
