It isnt a 'stealth skin' its a modified objects.dbb which makes it so stealth tanks and troopers dont fade out. If you dont believe me i can try and make a SS of it sometime. Also, ask crimson, I dont know if she went to the link, but i know for a fact that she also goes to the website I read that has a direct link to the hack. I am not saying that she has/will used it, but i am just saying that if she read around alil she could find it. Considering its a object.dbb if figure it will also be knocked out by rengaurd so not to worry about if they ever get it out.
