Blazer!Its fun to get a havoc and stand against the wall back between the ref and the power, and snipe the barrels of the pointwhoring mobarts on the hill....makes them so frustrated

lol, i do that sometimes.

usually no one gets to attack the other base anyway, it just ends up a battle for the hill between the arties and mrls.

I was also in a server on Islands before where they added a giant billboard that said "No b2b on this server," that was attached to the part right above the tunnels on the gdi side, so it got in the way of the mrls hitting the HoN.
