xRYaNNxMac why would you delete my question? LOL... it's not like it says anything more than the posts about bones.ini... just saying that gives away enough information for anyone.

So can you please answer this simple question? Will lag sniping be stopped by RenGuard YES or NO. Pick one.

He deleted your post because unlike posting about "bones.ini" or "the lag exploit" you felt urged to post HOW to do the exploit instead of just naming it :rolleyes:
