Yes, wherever you unpack brenbot, you should have these files in the same dir:

```
C:\Temp>cd brenbot-131
```

```
C:\Temp\BRenBot-131>dir
```

```
Volume in drive C has no label.
```

```
Volume Serial Number is 1A0E-0B01
```

```
Directory of C:\Temp\BRenBot-131
```

```
01/03/2004 06:08 AM <DIR>      .
01/03/2004 06:08 AM <DIR>      ..
01/03/2004 06:39 AM          2,612 brenbot.cfg
01/03/2004 06:19 AM           37 admins.brf
01/03/2004 06:22 AM          819 autoannounce.brf
01/03/2004 06:46 AM           31 masters.brf
01/03/2004 06:48 AM          330 messages.brf
01/03/2004 06:54 AM         6,021 help.txt
01/03/2004 06:54 AM <DIR>      html
01/04/2004 03:31 AM        16,443 perlglob.exe
01/10/2004 03:51 PM       2,712,451 brenbot.exe
01/10/2004 04:21 PM        18,715 Readme.txt
          9 File(s)    2,757,459 bytes
```

if you moved or copied the brenbot.exe to another dir and run it there, thats probably why. Also if you run a cmd.exe prompt and run it from another dir like C:\TEMP> \some\other\dir\brenbot.exe it will also not like that.
