furyman77IF you go to a server that spawns weapons, spend some time picking up some weapon spawns, and going back and getting that free refill, then you have full ammo on the newly acquired weapon. NOD Stealth Black hand and alternate weapons like a sniper riffle is allmost invincible.

On the topic of SBHs and spawn weapons, many has the time been that I go pick up a spawned shotgun as a SBH on large servers (24+). It's so funny; the Havocs and Deadeyes just KEEP COMING! They never learn. That much birdshot to the head and they never learn... :rolleyes:
