spreegemI AM NOT THE ONE WITH THE PROBLEM I SAID. . . It is my friend who is having the problem, and I do not know exactly what he is doing, I will try and get him on here next time I talk to him ok, he wil be able to better tell you what he did, or did not do.

Than why are you looking for an answer for your friend when all he has to do is get on here, register, and ask. Just a tad easier for everyone instead of you getting pissed at us because we can't provide an answer using the info you've given us.
