Hello. I have 2 problems. First is when i click multiplayer internet it says i need westwood online or a newer version of it. Well where do i get it ? Also when i click lan it says no lan ip found i also dont understand taht. My last problem is when i try to update my game it says i cannot find the directory of renegade !!!! What do i do the auto updater says the same and i tryed reinstalling. I think maybe it has to do somethign with my auto updater, is there any place i can get a new one? or somethign cause i really wwant to play ren mult. PLz help me out ty
