Imdgr8oneBattousaigay is wrong. Put all the gays on an island and in about 100 years there'll be no more gays.

Fuck you.

And to most everyone else in this thread, fuck you to.

I'm bisexual, and I didn't choose it, so shut your god damned mouths right now. You can't say that people like me choose it because I certainly don't remember getting a fucking say in what type of person I'm attracted to. Now if any of you were gay/bisexual, than you could have a say in this thread, but since none of you know what is like, fuck off.

I do! I remember being confused about sexuality for a while and saw a few men as attractive - did I go out and assram them? Hell no...

You can say "well, you don't know what it's like to " but that doesn't change that people will think differently than you do. Of course, if you came into this thread expecting to see nothing but "OPEN YOUR ARMS TO ASSRAMMING!" then there's a problem - people are different. If you want to preach tolerance, then start showing it in everything you do, or don't bother saying it.

Yes, tolerating intolerance is part of tolerance, whether or not anyone agrees with it.

Remember that Newton law of physics? Every action has an equal, yet opposite, reaction?

You open your mouth and blab about something the majority of the world dislikes, expect to have SOME sort of retaliation in return.

Would you be screaming "OMG TOLERANCE" if people here admitted to necrophilia and decided that everyone should accept it? There's nothing harmful about fucking corpses, after all! :rolleyes:
