forsakenyes it might, does it have like dubbed voices for SP? also do you mean "retreat" or "retret", if so what is retret?

Ahhh thats how you spell it (dam french words, well i think it is??)

My brother and I both hear the commando in tiberium dawn shouting 'retreat' when you loose connection when a server is shut down.

Edit: Surely all Renegade's voices are dubbed??? as are most computer games???
