I got the impression that they were going to put new content into the map, hence, mod. However, last I checked, there wasn't a law against a team of people making a single map. I, for instance, can't skin to save my life, but I could mkae something half-decent. A team of people like that with diversified talents could make a map in no time at all. Of course, if you want to make a map yourself, then by all means do so. But don't condemn other people because they don't.

EDIT: My internet filter went haywire, had to edit to make post readable, please pardon any dashes in the middle of words.

EDIT: Stupid internet thing...pardon poor spelling, it was necessary.
