Subject: Beta test files
Posted by Deactivated on Sat, 31 Jan 2004 20:16:18 GMT

A long time ago some Renegade beta test files were posted here. It mostly cointained WAVs.

If anybody has the disc, could it be possible to post up some files which may have not included in the zip file?
As I recall the original zip was 60 mb, but the copy I have is only 29 mb.
