Did your eyes just roll out of your head? I was debasing what Crimson said, not going on to irrelevant topics. If you're going to say that I edited my post to something entirely different, that's called a lie, something conservatives are quite good at doing. What I fixed in my edit was that I spelled a word wrong and I forgot to write how Clinton stealing furniture from the White House is complete and total B.S.

And wwhen you say Democrats are quite good at ignoring topics and moving on to different ones, I would have been slightly more tempted to agree with you if you had actually given some examples. Now, it may be your opinion that Democrats randomly change the subject, and you're entitled to your opinion. But then I'm entitled to my opinion that your opinion sucks.
