Your fix does not work and no one uses it because it is confusing, retarded and most importantly does not work. People rather use windows built in task scheduler than your pos fix :rolleyes: Name 1 place that is using your fix besides your 1 player snipesmo n00b server. No one uses your crappy script.

As for n00bstories comment, the site is designed to make fun of players and is probably scaring away more people from renegade, esp new players. I see no use for such a approach but that doesn't mean I'm insulting the site moron.
