AlkalineOk,

Also, are the maps city_flying or City non flying? Same question about glaceier. I'll check the objects file.

What about the auto messages?

Both, they use the same data. I'm not sure about C&C_Glacier.mix.

What do you mean about auto messages? If you mean the server reporting when a CTF event occurs, such as the flag being stolen, then yes. As long as renrem is configured in the server.ini file, and is enabled, they will work.
