If you write some outlandish garbage like trying to accuse me of cheating, just because you got killed and didn't like it, of course I'm going to post it... Especially when you talk about how fair and shit you are... right.

I don't post personal conversations up with anyone, but if it's a private message that's fucking retarded, like "I think you cheat, because I died, and I don't like that" or "you're an asshole and nothing you do can change my mind, even if I'm acting the same way that's making me hate you," of course I'll post it.

Quote:Don't forget that you're using a \$130 video card that was given to you basically as a bribe 15 months ago to get you to try really really hard to treat people with a little more respect..

And I did, if you recall correctly. It's just recently that my mind is changing about this place, and realizing that no matter what I do, you're going to talk as much shit as you want about me. So why should I care anymore? I don't fucking attack you in public, and if I do, I apologize for it promptly afterward.

You know why? As I've stated before, I actually respect you, but when you piss me off by making it your prerogative to attack me like you couldn't give a shit about anything I think, then what else do you fucking expect in return?

Quote:How quickly we forget that we've DONE the private conversation tract already.. like 100 times.

We've talked, maybe five times, and you rarely, if ever, discuss anything personal with me in a real time environment. You tell me "be respectful" as if I'm supposed to know what the fuck you mean. Your definition of "respectful" could be anything for all I know. This is the Internet, it isn't the god damned real world where you can tell if you're pissing someone off, or if something you say will have an adverse effect by telling how people are acting, emotionally and otherwise.

Quote:You're like the little kid, that as long as they have an adult standing around to continually slap their hand and tell them no, they do okay.. remove the adult and we're all fucked.

That's bullshit. This is exactly what I mean, what do you expect me to reply with? "Okay msgtpain, okay, I'm wrong, you're right, you couldn't possibly be wrong about this, and it doesn't matter if this entire situation is more than black and white, but shades of gray, so long as I bow down and humiliate myself in public."

If that's your aim, you're not getting it.

EDIT:

I'm going to bed. And here's your "whatever," you succeeded at pushing me to the point of not caring about you anymore.
