AircraftkillerQuote:Sorry, ACK, but if I'm in the middle of the field and I see something that the team needs to know about, I'm not going to watch the shift key and I will use "hottie" instead of "hotwire".

You mean you look down when you're typing? Maybe I'm in the minority but I watch the screen when I type and my fingers are placed "properly" on the keyboard so I can type as fast as possible without resorting to "omg stank rsh inc omg omg inc inc omg"

Of course I don't look at the keyboard... haven't since 8th grade. Maybe I should have used the word "mind"... then you'd understand... or maybe "pay attention to my fucking usage of".
