ok, I have implemented all the scripts and am now doing final cleanup and documentation, then comes:

Testing

Integrating any other scripts made by others (e.g. the 3 CTF ideas which I personally dont have time to code up)

Writing some animation scripts if I/we can figure out how

Also, I have had to abandon the JFW\_KOTH\_Zone script due to being unable to implement it in a workable way, mabie I will take another look for 1.6 (if there is a 1.6)

No ETA on release yet
