Ok, did they send u this?

Quote:Unfortunatley at this time we do not have the abillity to release any new numbers. All serial numbers are controlled by our FDS server which is currently undergoing maintenance. Our development teams are currently working to restore full service to this server and hope to have it working soon. I am sorry that I do not have an official date for when it will be ready, but any new informaiton on this issue will be posted on the Westwood website only. I am sorry for the inconvenience.

Best regards,

Peter R.
