[sgthe0ne]Javaxcx I hope this is just simply myself, but I can't seem to connect to the n00bstories IRC at all.

I will recognize the fact that n00bstories is there, but it does not go past the "Checking ident" and eventually just times out. If anyone can help me out with this, thanks alot

Try enabling ident for your client. If that doesnt help try changing the info in your fullname/alias field I had a similar problem the other day because I was using 'invalid charaters' in the username ...ie [and]

Good luck

Yeah, I've tinkered with all that, but there is nothing which it working. The identifying thing is simply timing out after about 2 minutes.

:\
