SeaManspreegem How do I get past the laser wall? The one after you get the soda . . . after the hallways with three laser walls?

I am stuck on that too.

I was able shut down the laser wall but I can't find a way to open the door.

How do you shut the laser wall down? I have a key, do you have one? I don't remeber where I got it though, but all I need to do is shut down the laser wall, then I think I use the key on the door . . .
