http://www.walmart.com/catalog/product.gsp?product_id=2416621&cat=86798&type=19&dept=3944&path=0%3A3944%3A3951%3A41937%3A41937%3A86796%3A86798

Would that PC run a dedicated 18 player infantry only server with minimal lag? I know my connection can handle it it's just that I'm on a low budget and would like to get me second server going while spending less that \$300.
