niiiiiiiice, I waited for this day  
nice work mac and all others that made this work.

Edit:

As of  
version 0.3, the wrapper automatically loads automatically the .so file, and  
starts renegade. You can get version 0.3 of the wrapper at  
<http://www.brenbot.com/wrapper>

Version 0.2 on the page.

Great work, thx guys.
