oblivion165: just look at the turret, it has the same mesh around it, the same barrel, the same everything. The body is slightly different.

OH i dont think he stole or, or even attempted to steal it. i just think we need some fresh ideas.

1. The basket around the turret is completely different, the one on the OLD Renegade Alert tank is flat, the one on his tank isn't.
2. As far as I can tell from those screenshots, the barrels are different.
3. The back of the turret on his is made different than the RenAlert one, and his has little boxes.
4. The antennae are different.
5. The body/treads on our old tank are seperate, his isn't.

They can't be the same.
