Subject: help crashing at config and at game start
Posted by darkfyre on Tue, 30 Mar 2004 04:59:28 GMT

help i am running on a windows XP
intel pentium 4 with 500 ram 2 80 gig hard drives
nvida 5600 256 card

i use a microsoft intell mouse a link sys transmiter

4 fans
my problem is my Config and my game they crash at the start i have reinstalled 6 times
reformated reinstalled windows

i renamed the config so i could skip that and the game still crashed

PLEASE HELP ME PLZEEEEEEEEEEEEEEz i also have this error called offset.000339db
