Hey,

I was just wondering about a skin that takes the green out of the scope when you snipe. It is a dds file... I was wondering if this type of file will be in RG and if so, please let me know, so that I can get rid of it ASAP. I am not a cheater and if this is considered a cheat then I do not want it at all. So, please let me know if this is classified as a cheat. Thank you.
