spreegemHere's my current wallpaper with all the desktop icons on it. No hard to do, filter > render > clouds, then filter > stylize > color halftone, size 1, type dot, then I just made the Hexagons and put them over that about 10 pixels apart I think. and do hue sturation to color it. Please don't look at the bottom left corner of the picture though

You cheating son of a bitch.
