Subject: Assets for C&C Commando mod project
Hey Aircraftkiller, I'm going to ask you this:

Could there be any chance that you would share some of your/Westwood's Renegade assets for use in the C&C Commando mod project?
For example, the original Flame tank model by Eric Kearns.
Not that if I weren't able to create new things, it it just that I want to use authentic Westwood art whenever possible.

Here is C&C Commado's site:
http://www.cannis.net/commando/

At the moment it's just a file resource site for Renegade.

If you are interested, I can tell you more about this project.

Thanks in advance.
