It's childish asking someone to leave your server because they state their opinion about a mod.

I didn't force you or threaten to kick you, I just ask you leave because if something sucks, then why are you in it? Are you stupid? Do you like playing with stuff that sucks? you like to suck?

Your full of shit if you go around something sucks yet to you join to play it :rolleyes:

p.s. I have seen you countless time son renwarz so you do in fact play on gamespy, or atleast connect to servers hosted on gamespy. (I even have a picture of you on C&C\_ruins where your legs have been chopped off):
